Short description

I started my career as an actor during my studies in Politics in Florence and the Master's degree in acting in London. I work in different countries and different languages (German, Italian, English and French) and I like to challenge my acting-sensibility and work with the body in always new projects.

Education

Period	Institution/Location
2007 - 2008	University London
2000 - 2006	Università Firenze
