Short description

At 16 years old I travelled to England, where I completed my A-Levels in Film.

This enabled me to complete a course for Film Production with a specialisation in “Cinematography” at the University for the Creative Arts.

In recent years I have worked on projects such as feature films, short films, and documentaries, be it digital or on film.

I also discovered my passion for underwater films through my experiences in diving over the years and would like to continue specialising in this area.

Education
