39100, Bolzano-Bozen

Short description

Our young creative studio, born in Bolzano, has always kept the production of short and long films as a major activity. This prompted us to open a branch in Bolzano dedicated to film and photographic production, to support our business but also to give production companies, directors and film projects the opportunity to give life to their sets. Our service also extends to the 3D rendering of the sets and support during the production phase, in case of rental of our studio.
