Short description

We have been working in the area of national and international tax advising and corporate auditing since 1995. Our team, based in our offices in Bolzano, Milan and Rome, is comprised of 7 partners, 60 professional advisors and 35 back office assistants.

All of our team are fluent in several languages and some are native German speakers. We aim to achieve the highest quality standards and level of trustworthiness possible, through deep professional knowledge, personal commitment and client-tailored services. Thanks to our size and scale, we are in a position to assist our clients even in large-scale mandates. The provision of face-to face, client-tailored advisory services is our top priority.

We offer tax and corporate law advisory services for film professionals (producers and investors) ranging from mere tax code requests to human resources management and direct identification, from financial advisory services to advisory on film subsidies (tax credit). In the past, we already assisted clients in the preparation of financing models for US independent productions in cooperation with an international bank.

For further information please do not hesitate to contact Richard Burchia, our partner in charge.
