Short description

The Hotel Adria is a Belle Époque style architectural jewel dating from 1885, designed by the famed architects Musch & Lun. It is located in the villa district in Merano Maia Alta. Perfect set for films of each type (especially historic). Hundred-year old lift (still in function), terrazzo floor, chandelier in one of the lounges, which belonged to Venice's last doge and a lot of other historic objects. Due to the central position, a private car park, meeting room with WIFI and othe basic equipment, the Hotel Adria is also convenient for the accomodation of the crew. We can offer- if not high season- up to 40 rooms (15 single and 25 double- also double for single use).
