Short description

I'm studying theater, film and media studies and gender studies in vienna. I have already worked as runner, production assistant (on set and in the office) and produced my one small projects (music video and shortfilm). Beside that I have some expirience with extra management and castingassistent. 2024 I worked as production coordinator for Olga Kosanovic documentary "Noch lange keine Lipizzaner".

Most fun for me is organising and planing, this is why I love working in the production department.

Education

Period	Institution/Location
