Short description

Hello, my name is Martin and I have spent over 20 years in the real estate sector. Starting in 2016 I began to work also in three local documentary's. I worked in the production and also in the postproduction. I write poems, I'm a team worker and I consider myself to be well organised. I can follow the financial framework, so I have experience in production management. I have already written some scripts, so I can translate Italian in German. I have interests in working as Location Scout. You can follow my writing at #martinstreitberger

Education

Period	Institution/Location
