Short description

I studied at Bolzanos documentary film school ZeLIG 2007-2010 with a major in camera. For my graduation film on s16mm, I was nominated for the female cinematographer award in the national competition of the Dortmund/Cologne International Woman's Film Festival. Since then I shot fictional short films, documentaries and reportage as cinematographer, some of them in Lisbon, where I was lived over a few years. I have been working regularly as camera assistant for documentaries and daily reportages as well as electrician and camera assistant on fictional productions.
