Short description

'Il Battente 1862' is an elegant Bed & Breakfast located in an 18th century building, a former residence of the Teutonic Order, and a listed building under the protection of the Ministry of Cultural Heritage. Completely refurbished in 2013, it stands out for the original period furniture with its elegant finishes, modern yet personal, and offers a refined and delicate ambience to our guests.

It's located in Bolzano, the gates to the Dolomites, at the heart of the old city centre just 300 m away from Piazza Walter, the square hosting the famous Christmas market, and the train station. The strategical location of the 'Il Battente 1862' allows you to quickly reach the Renon and San Genesio cable cars to visit the surrounding mountains.
