Short description

Growing up in a small mountain village in Val Senales and driven by my enthusiasm for graphics and video I decided to pursue an education in the graphic arts sector. From November 2019 to September 2021 I was part of Takt Film. As assistant producer I accompanied projects from pre-production to shooting on set, concept creation and location management. From time to time I realize small animations and motion graphics on selected projects. Due to my work with various clients, I have a high level of understanding of both the German, Italian and English language.

Education

Period Institution/Location

2016 - 2019 Fachoberschule für Wirtschaft, Grafik und Kommunikation
