Short description

I hold a Master's in Film and Digital Media from the UK, focusing on directing and producing. Currently I am making a documentary about life without water and electricity in the Dolomites. I developed projects in Kenya and on the Maasai, worked as pre-editor on Hill of Vision (prod. of Life is Beautiful), and gained acting experience in Netflix and Amazon films. With festival work, studies in Ireland, Berlinale and Cannes attendance, and travels to 38 countries, I bring global perspective and passion for storytelling.
